Keyword Index

Adult attachment styles; Burnout 66
Anxiety; Four-Dimensional Symptom Questionnaire; 4DSQ; Distress; Depression; Somatization; Occupational stress; Psychometric properties 187
Bullying; Emotional abuse; Psychosocial work environment; Work-related stress; Management style 336
Burnout; Adult attachment styles 66
Burnout; Dominance; Conflict behaviour; Policing 23
Burnout; Personal projects; Intervention 208
Causation; Longitudinal research; Demand-Control-Support model; Well-being; Reciprocal relationships; Structural equation modelling 149
Conflict behaviour; Burnout; Dominance; Policing 23
Conflict with superiors; Teacher empowerment; Organizational commitment 56
Coping; Occupational stress; Health symptoms; Gender; Job level 267
Cross-cultural; Gender; Violence; Psychiatric nurses; Psychiatrists; Work and psychological strain 39
Decision authority; Predictability; Psychosocial work environment; Sickness absence; Prospective study 323
Demand-Control-Support model; Longitudinal research; Well-being; Causation; Reciprocal relationships; Structural equation modelling 149
Depression; Four-Dimensional Symptom Questionnaire; 4DSQ; Distress; Anxiety; Somatization; Occupational stress; Psychometric properties 187
Depression; Nursing assistants; Nursing homes; Mental health; Work schedule tolerance 292
Differential item functioning (DIF); Job demands; Psychosocial questionnaire; Methodological issues; Validity; Work pace; Working hours 305
Distress; Four-Dimensional Symptom Questionnaire; 4DSQ; Depression; Anxiety; Somatization; Occupational stress; Psychometric properties 187
Dominance; Burnout; Conflict behaviour; Policing 23
4DSQ; Four-Dimensional Symptom Questionnaire; Distress; Depression; Anxiety; Somatization; Occupational stress; Psychometric properties 187
Effort-reward imbalance; Sleep quality; Sleep disturbances; Overcommitment; Working population 167
Effort-Reward Imbalance; Work stress; Stress model; Strain 81
Emotional abuse; Bullying; Psychosocial work environment; Work-related stress; Management style 336
Employee well-being; Supervisor behaviour; Psychosocial factors 255
Europe; Occupational mental health; World Health Organization 179
Factor analysis; Lay beliefs; Lay theories; Meaning of work stress; Work stress 245
Four-Dimensional Symptom Questionnaire; 4DSQ; Distress; Depression; Anxiety; Somatization; Occupational stress; Psychometric properties 187
Gender; Occupational stress; Coping; Health symptoms; Job level 267
Gender; Violence; Psychiatric nurses; Psychiatrists; Cross-cultural; Work and psychological strain 39
Gender; Work-to-family conflict; Job satisfaction; Well-being; Longitudinal data 1
GP service use; Work stress; Mental health; Self-employed 231
Health and Safety Executive; Work-related stress; HSE; Management Standards; Risk assessment; Indicator Tool 113
Health symptoms; Occupational stress; Coping; Gender; Job level 267
HSE Regulation; Prevention of psychosocial hazards; Stress management; Management Standards; Risk assessment 91
